NCS ALPHA

Holistic Progress Card

Name : IRA MENON

Roll Number :

Class/Section : IV A

Admission No. : A/3c5835de

Session 2026-2027

All About Me

Student's Name	IRA MENON
Father's Name	PARENT TEST
Mother's Name	
Date of Birth	13-08-2016
Admission No.	A/3c5835de
Class & Section	IV A
Roll No.	

My Favourites

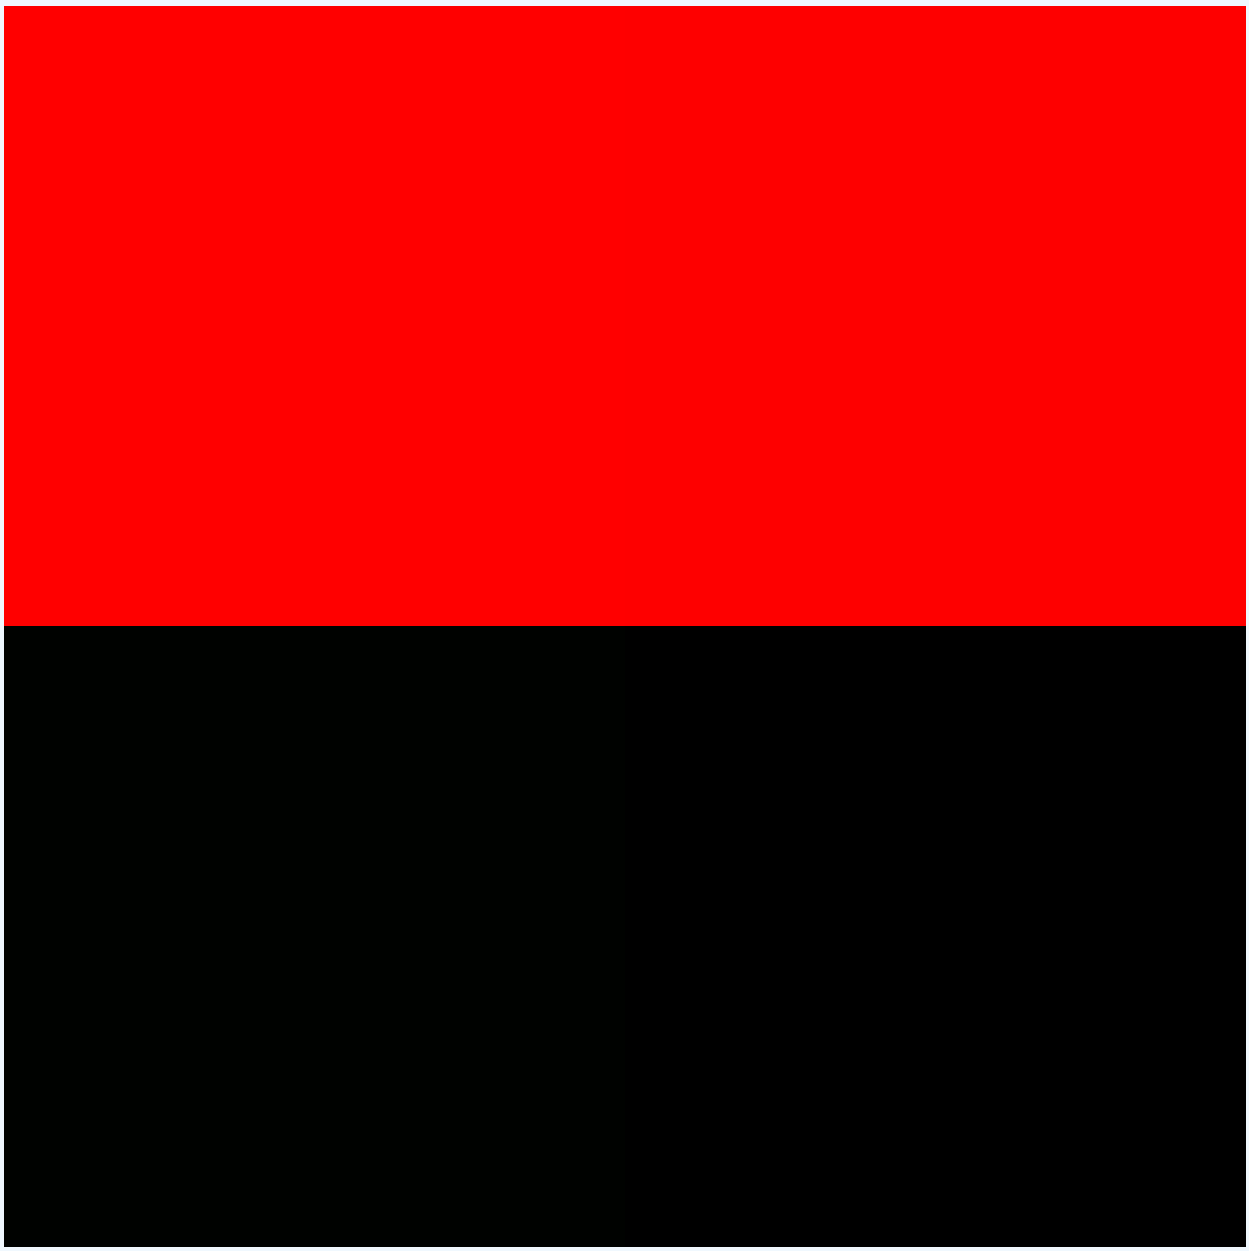

My favourite book/poem/song/story is	Ramayana
I love to eat	Spinach
My favourite people are	
I love to participate in	
I do not like	
How do I cope with it?	
I want to know more about	Mathematics

TERM I

My Height is 142cm .

My Weight is 32kg .

A Glimpse of myself

Part A

How do I feel at School	TERM I			
	Not Sure	Sometimes	No	Yes
1. I can talk about how I feel (happy, confident, upset, angry etc).			✓	
2. In a difficult situation, I am able to stay calm.				✓
3. I understand how my friends feel.			✓	
4. When someone is sad, I can make them feel better.				✓

Part B

LANGUAGE-R1

1 Competencies		TERM I
CG 1 Develops oral language skills using complex sentence structures to understand and communicate ideas coherently.	Converses fluently and meaningfully in different contexts.	
	Summarises core ideas from material read out in class.	
	Makes oral presentations (show and tell, short welcome notes, anchoring of small events, short speeches, class debates).	
CG 2 Develops the ability to read with comprehension by gaining a basic understanding of different forms of familiar and unfamiliar texts (such as prose and poetry).	Applies varied comprehension strategies (inferring, predicting, visualising) to understand different texts.	
	Understands main ideas and draws essential conclusions from the material read.	
CG 3 Develops the ability to write simple and compound sentence structures to express their understanding and experiences.	Uses writing strategies, such as sequencing, identifying headings/sub-headings, the beginning, and ending, and forming paragraphs.	
	Writes clear and coherent paragraphs that convey their understanding of a given topic/concept or on a reading of a text.	
	Creates posters, invites, simple poems, stories, and dialogues with appropriate information and purpose.	
	Uses appropriate grammar and structure in their writing.	
CG 4 Acquires a more comprehensive range of words in various contexts (of home and school experience) through different sources.	Discusses meanings of words and develops vocabulary by listening to and reading a variety of texts or other content areas.	
	Discusses meanings of words and develops vocabulary by listening to and reading a variety of texts.	
CG 5 Develops interest and preferences in reading.	Borrows books from the library regularly to read at home.	
	Demonstrates interest in reading books from the library.	

LANGUAGE-R2

2 Competencies		TERM I
CG 1 Sustains effective communication skills for day-to-day interactions, enhancing their oral ability to express ideas.	Listens to poems, stories, and conversations and locates important ideas in them.	
	Comprehends narrated/read out stories and identifies characters, storyline, and key aspects.	
	Converses meaningfully and coherently	
	Makes oral presentations and participates in group discussions.	
CG 2 Develops fluency in reading and the ability to read with comprehension.	Develops phonological awareness further by blending phonemes/ syllables into words and segmenting words into phonemes/ syllables.	
	Examines the basic structure of the text and recognises words and sentences in print and basic punctuation marks.	
	Reads stories and passages fluently and accurately with appropriate pauses.	
	Comprehends the meaning of stories, poems, and story posters.	
	Demonstrates interest in picking up and reading a variety of children's books.	

LANGUAGE-R2 (contd.)

2 Competencies		TERM I
CG 3 Develops the ability to express understanding, experiences, feelings, and ideas in writing.	Writes a paragraph to express understanding and experiences.	
	Creates simple posters, invites, and instructions with appropriate information and purpose.	
	Writes stories, poems, and conversations based on imagination and experiences.	
CG 4 Develops a wide range of vocabulary in various contexts and through different sources.	Discusses meanings of words and develops vocabulary by listening to and reading a variety of texts or other content areas.	

MATHEMATICS

3 Competencies		TERM I
CG 1 Understands numbers (counting numbers and fractions), represents whole numbers using the Indian place value system, understands and carries out the four basic operations with whole numbers, and discovers and recognises patterns in number sequences.	Represents numbers using the place value structure of the Indian number system, compares whole numbers, and knows and can read the names of very large numbers.	
	Represents and compares commonly used fractions in daily life (such as ½, ¼, etc.) as parts of unit wholes, as locations on number lines, and as divisions of whole numbers.	
	Understands and visualises arithmetic operations and the relationships among them, knows addition and multiplication tables at least up to 10x10 and applies the four basic operations on whole numbers to solve daily life problems.	
	Recognises, describes, and extends simple number patterns such as odd numbers, even numbers, square numbers, cubes, powers of 2, powers of 10, and Virahanka–Fibonacci numbers.	
CG 2 Analyses the characteristics and properties of two and three-dimensional geometric shapes, specifies locations and describes spatial relationships, and recognises and creates shapes that have symmetry.	Identifies, compares, and analyses attributes of two- and three-dimensional shapes and develops vocabulary to describe their attributes/properties.	
	Describes location and movement using both common language and mathematical vocabulary; understands the notion of map.	
	Recognises and creates symmetry (reflection, rotation) in familiar 2D and 3D shapes.	
	Discovers, recognises, describes, and extends patterns in 2D and 3D shapes.	
CG 3 Understands measurable attributes of objects and the units, systems, and processes of such measurement, including those related to distance, length, weight, area, volume, and time using non standard and standard units.	Measures in non-standard and standard units and evaluates the need for standard units.	
	Uses an appropriate unit and tool for the attribute (like length, perimeter, time, weight, volume) being measured.	
	Carries out simple unit conversions, such as from centimetres to metres, within a system of measurement.	
	Understands the definition and formula for the area of a square or rectangle as length times breadth.	
	Devises strategies for estimating the distance, length, time, perimeter (for regular and irregular shapes), area (for regular and irregular shapes), weight and volume and verifies the same using standard units.	
	Deduces that shapes having equal areas can have different perimeters and shapes having equal perimeters can have different areas.	
	Evaluates the conservation of attributes like length and volume and solves daily-life problems related to them.	

MATHEMATICS (contd.)

3 Competencies		TERM I
CG 4 Develops problem-solving skills with procedural fluency to solve mathematical puzzles as well as daily-life problems, and as a step towards developing computational thinking.	Solves puzzles and daily-life problems involving one or more operations on whole numbers (including word puzzles and puzzles from 'recreational' areas, such as the construction of magic squares).	
	Learns to systematically count and list all possible permutations or combination given a constraint, in simple situations (e.g., how to make a committee of two people from a group of five people).	
	Selects appropriate methods and tools for computing with whole numbers, such as mental computation, estimation, or paper pencil calculation, in accordance with the context.	
CG 5 Knows and appreciates the development in India of the decimal place value system that is used around the world today.	Understands the development of zero in India and the Indian place value system for writing numerals, the history of its transmission to the world, and its modern impact on our lives and in all technology.	

THE WORLD AROUND US

4 Competencies		TERM I
CG 1 Explores and engages with the natural and socio-cultural environment in their surroundings	Observes and identifies the natural (insects, plants, birds, animals, geographical features, sun and moon, stars, planets, natural resources) and social (houses, relationships) components in their immediate environment.	
	Describes relationships (including between humans and animals/ nature) and traditions (art forms, celebrations, festivals) in the family and community.	
	Asks questions and makes predictions about simple patterns (season change, food chain, phases of the moon, movement of stars and planets, shapes of trees, plants, leaves, and flowers, rituals, celebrations) observed in the immediate environment.	
	Explains the functioning of local institutions (family, school, bank/post office, market, and panchayat) in different forms (story, drawing, tabulating data, reports), and analyses their roles.	
	Uses local materials to create simple objects (family tree, envelopes, origami animals) on their own for display or use in classroom processes.	
CG 2 Understands the interdependence in their environment through observation and experiences, developing the basis for appreciation of the idea of 'Vasudhaiva Kutumbakam'.	Identifies natural and humanmade systems that support their lives (water supply, water cycle, river flow systems, seasons, life cycle of plants and animals, food, household items, transport, communication, electricity in the home).	
	Describes the relationship between the natural environment and cultural practices in immediate environment (nature of work, food, festivals, traditions).	
	Connects changes in the environment and the lives of family and community, as communicated by elders and through local stories (changes in occupation, food habits, resources, celebrations, communication).	

THE WORLD AROUND US (contd.)

4 Competencies		TERM I
CG 3 Explains how to ensure the safety of self and others in different (normal as well as emergency) situations.	Describes the basic safety needs and protection (health and hygiene, food, water, shelter, precautions, awareness of emergency situations, abuse, and unsafe situations) of humans, birds, and animals.	
	Discusses how to prepare for emergency situations (smoke, fire, small injuries, burns, electrical safety, unseasonal rains, fallen trees) based on discussions with family and community, or personal experiences.	
	Develops simple labels and slogans, and participates in roleplay on safety and protection in the local environment to be displayed/done in school and locality.	
CG 4 Develops sensitivity towards social and natural environment.	Observes and describes diversity among plants, and birds and animals in immediate environment (shape, sounds, food habits, growth, habitat).	
	Observes and describes cultural diversity in their immediate environment (food, clothing, games, different seasons, festivals related to harvest and sowing).	
	Describes usage of natural resources in their immediate environment.	
	Demonstrates how natural resources can be shared, maintained, and conserved (trees, use of rainwater, benefits of millets).	
	Identifies needs of plants, birds, and animals, and how they can be supported (water, soil, food, care).	
	Identifies the needs of people in different situations – in terms of access to resources, equal opportunities, work distribution, and shelter.	
	Learns about basic social and behavioural norms, values, and dispositions that benefit our social and natural environments and that help our society function smoothly (using dustbins, standing in queues, conserving water, using public transportation, keeping one's environment clean, always helping others in need regardless of background).	
CG 5 Develops the ability to read and interpret simple maps.	Explains a line drawing of their school, village, and ward.	
	Draws a sketch of their school, village, and ward using symbols and directions.	
	Reads simple maps of city, state, and country to identify natural and humanmade features (well, lake, post office, school, hospital) with reference to symbols and directions.	
CG 6 Uses data and information from various sources to investigate questions related to their immediate environment.	Performs simple inquiry related to specific questions independently or in groups.	
	Presents observations and findings through different creative modes (drawing, diagram, poem, play, skit, oral and written expression).	
CG 7 Gains foundational familiarity with basic concepts and methods from the natural sciences (life sciences, physical sciences, and earth and space).	Gains familiarity with using the scientific method in investigations, as well as familiarity with other crosscutting concepts such as energy, matter, and systems that apply across the domains of science and engineering.	
	Gains familiarity with disciplinary core ideas in the natural sciences, as well as in engineering, technology, and applications of science, which reflect the content that will be learned across subject areas in later Grades.	

ARTS EDUCATION

5 Competencies		TERM I
CG 1 Develops an enjoyment of the Arts and exercises their creativity and imagination in Visual and Performing Arts activities.	Creates and presents a variety of artwork to communicate their ideas and emotions in any of the Visual and Performing Art forms (emphasis on variety in Music, painting, drawing, crafts, Drama, Dance and Movement, and local Art forms).	
	Describes the varied materials, tools, and processes used in the Visual and Performing Arts and demonstrates familiarity with some of these in their own artwork [e.g., identifies and names some musical instruments and demonstrates simple beats on a dholak, khanjira, bells, utensils, or one's own body (clapping, tapping, making different sounds using mouth and hands)].	
	Creates artworks collaboratively and shares own thoughts and feelings while responding to arts and culture in their surroundings.	

PHYSICAL EDUCATION

6 Competencies		TERM I
CG 1 Demonstrates the use of basic skills (running, jumping, catching, throwing, hitting, and kicking) to participate in different physical activities/games/sports.	Practices a combination of movement, motor skills, and manipulative skills (catching, throwing, kicking, hitting a ball towards a target while moving, focusing on visual cues to hit the target).	
	Moves purposefully their body to a beat/rhythm/music.	
	Demonstrates coordination abilities with a partner and objects (e.g., being able to move in coordination with a partner in three-legged race, hand-eye coordination while bowling, throwing).	
	Demonstrates basic warm-up exercises and stretching to develop strength and flexibility in the body.	
CG 2 Develops an awareness of their personal and social behaviour towards themselves and others.	Demonstrates the ability to play games and activities which require and emphasise teamwork, cooperation, personal responsibility, and communication of ideas.	
	Creates group norms and rules of the game/activity before playing and reviews these regularly.	
	Exhibits sensitivity to injuries of others and acts empathetically when the other player is physically injured, emotionally stressed, and feeling unwell.	
	Practices care and responsibility towards the physical activity material, playground, and facilities.	
	Identifies characteristics of safe/unsafe touch in the context of physical activity and describes ways of reporting them.	
CG 3 Demonstrates mental engagement in physical activity/game situations.	Explains the concept of some games, their rules, playing positions, and basic moves.	
	Expresses their emotions and thinking process during the game.	
CG 4 Develops an understanding of the need to develop themselves and self-assess their progress.	Sets simple personal goals/targets and records progress (e.g., throwing a ball at 25 m, then 30 m, then 40 m; Jumping 1, 2, 3 feet high/long).	

SOCIO-EMOTIONAL-ETHICAL LEARNING

7 Observations		TERM I
Socio Emotional Ethical Learning	Has emotional regulation and is able to respond appropriately to various situations.	NO
	Displays empathy for all living beings and the environment.	YES
	Is inclusive and kind in approach towards all cultural, social, religious and ethnic identities.	YES
	Has resilience and displays grit.	YES
	Understands ethical implications in all situations.	YES

POSITIVE LEARNING HABITS

8 Observations		TERM I
Positive Learning Habits	Has the mental flexibility to sustain as well as shift attention appropriately.	NO
	Asks interesting and relevant questions.	YES
	Can articulate one's opinions in a coherent and focused manner.	YES
	Has growth mindset-seeks help actively.	YES
	Is able to reflect on work done and take suitable action.	YES
	Follows classroom norms with agency and understanding.	NO
	Has self-control that enables learning in structured.	YES

Part C

Peer Feedback	TERM I		
	Cannot Say	No	Yes
1. My friend can talk about how he/she feels, e.g. happy, confident, upset or angry.			✓
2. My friend can calm himself/herself down during difficult situations.		✓	
3. My friend can understand how his/her friends feel.			✓
4. My friend respects everyone's opinions.		✓	
5. My friend can help others make up after a fight.			✓
6. When someone is sad, my friend can make them feel better.		✓	

Learner Feedback

	TERM I
What am I good at?	Drawing and cricket
What did I enjoy this term?	Drawing and cricket
What did I find challenging?	Drawing and cricket
What is my action plan for the next term?	Drawing and cricket

Attendance

TERM I	—	—	—

Teacher's Remarks

TERM I:	Ira is a sincere student who is making steady progress.

Date: 03-Oct-2026

Class Teacher PRINCIPAL Parent

Key to the plants

Grade	Explanation
BEGINNER 	The student is at the beginning stage of target competency and needs a great deal of support and handholding.
PROGRESSING 	The student is able to meet some part of target competency independently but needs some (occasional) support and handholding.
PROFICIENT 	The student is able to meet target competency independently without any support.
NOT ASSESSED N/A	Parameters that were not assessed have been marked as N/A.
